

# **COLD EXTRUSION OF CARBON STEELS**

Effects of Tool Geometry on Backward Extrusion, PERA Report No. 102

INTRODUCTION 5

OBJECT 6

CONCLUSIONS 6

EQUIPMENT 6

WORK MATERIAL 10

TEST PROCEDURE 10

RESULTS 10

1(a) Effect of Tool Geometry on Punch Pressure 13

1 (b) Effect of Tool Geometry on the Force to Eject the Component from the Die 15

1(c) Effect of Tool Geometry on the Shape of the Component 17

2 Effect of Slug Thickness on Punch Pressure 19

APPENDIX

Effect of Punch Profile and Reduction in Area on the Extension of the Slug Surface and the Phosphate-Lubricant Coating 24
