

ASPECTS OF THE PLASTICITY MECAHNICS OF SOME SHEET METALFORMING PROCESSES

W. Johnson & A. G. Mamalis, University of Cambridge

Hellenic Steel Publications, Thessaloniki, Greece, 1978.

CONTENTS

SUMMARY 5

INTRODUCTION 7

THE DEEP- DRAWING OF A CIRCULAR BLANK:

SOME FUNDAMENTAL FEATURES 9

- (a) Blank- Holding 12
- (d) Drawing Ratio 12
- (c) Die Profile Radius 12
- (d) Punch Profile Radius 14
- (e) Radial Clearance 14
- (f) Material Properties 15
- (g) Lubrication 20

THE BIAXIAL BULGE TEST AND STRETCH- FORMING 21

The End of Useful Straining: Instability: Forming Limit Diagrams 22

REMARKS ON ANISOTROPY 25

SOME INTERESTING SHEET FORMING PROCESSES 27

1. Other Methods of Gup — Forming 27
2. High - Energy Rate Forming of Metals 29
3. Metal Spinning, Shear - and Flow — Forming 35
4. Roll — Forming 38
5. Superplastic Metal Forming 40
6. Peen — Forming 43
7. Hole- Flanging (Drifting) 44
